Project Overview:

Project Name: [Book Nest]

Project Description: [**Book Nest** is a technology-integrated project designed to enhance the reading experience for students by combining physical reading spaces with smart digital tools. The project aims to create a cozy, user-friendly environment where students can access, recommend, and discover books easily. Using data-driven models, Book Nest offers personalized book recommendations based on individual preferences, past reading behavior, and genre interest. It features a digital catalog, reading progress tracker, and smart input validation for efficient data management.]
